

The Breindeer's Christmaths Quiz

2

Vixen likes to put up her Christmas tree early so that she can enjoy the flashing lights for as long as possible. The red lights flash every second; the blue lights flash every 2 seconds; the green lights flash every 3 seconds; the yellow lights flash every 4 seconds; the orange lights flash every 5 seconds; the purple lights flash every 6 seconds and the white lights flash every 7 seconds.

When she switches the lights on, they all flash at the same time. How many minutes will it be before they all flash at the same time again?
