

# The Christmaths Cracker Quiz

The competition will run from Monday the 13th December to Sunday the 19th December.

Each school day between these dates there will be a different problem sheet.

Each problem sheet will involve a “Present Problem” and a “Cracker Problem”.

Write your answers to the present problems and sketch a clear diagram showing the solution to the cracker problems in the relevant spaces on your entry form. For the cracker problems bigger shapes surrounding a group of smaller shapes do not count as an extra shape!

Each problem sheet also contains a cracker joke and in case a tie-breaker is needed you should try to include your own joke in the space provided on your entry form. Funny jokes linked to Christmas or Maths will gain more credit!!

Hand your completed entry form to your Maths Teacher or Mr. Chadwick by the end of school on Tuesday 21st December.

Collect an entry sheet from  
your Maths teacher.  
**Fabulous prizes to be won.**  
**Good Luck!**
